

MARIUS GRASSMAN

BSc(HONS) OF COMPUTING: SOFTWARE ENGINEERING

☎ 082 414 3629 | ✉ marius-jnr@outlook.com | 📍 Eldoraigne, Centurion, Gauteng | 🔗 <https://gras-sie.github.io/>

ABOUT ME

Software engineer-in-training with hands-on experience in full-stack and enterprise systems, strong backend architecture skills, and a solid grasp of AI and automation. Using AI in SWE.

EDUCATION AND CERTIFICATION

BSc(Hons) of Computing: Software Engineering Belgium Campus ITversity (2023–Present)

- Top 5 of cohort · 26/27 distinctions

TECHNICAL SKILLS & EXPERTISE

- **Languages & Frameworks:** Java, C#, Python, JavaScript, HTML/CSS, Spring Boot, .NET, React, Node
- **Databases & Architecture:** MongoDB, Cassandra, SQL Server, Derby, REST APIs, MCP Servers
- **DevOps & Tools:** Docker, Git/GitHub, Azure, Maven, Bash, CI/CD Pipelines, Google Collab, Conda
- **Certifications:** 20+ industry badges (O'Reilly, IBM, HackerRank) in ML, APIs, quantum algorithms and Software Engineering

WORK EXPERIENCE

Junior Data Systems Developer · Concrete Testing Equipment (Aug 2024–Nov 2024)

- Built real-time Excel–SQL calibration DB (+35% accuracy) & web UI (50% faster onboarding).
- Partnered with ops & IT to streamline workflows and QA.

Vacation Intern · Deloitte VIBE (Jul 2025)

- Delivered AI tool for staffing optimization; praised for intuitive UX.

Tutor · Belgium Campus (Feb 2025–Present)

- Led 20+ ML & algorithms workshops with 90% positive feedback.

KEY PROJECTS :

- **Student Wellness Management System** · Java Swing & Apache Derby; feature-rich desktop app with appointment, counsellor, and reporting modules, plus automated backups and admin tools
- **E-commerce Backend System** · Built a distributed backend using MongoDB for product and session data, and Cassandra for transactional consistency. Designed sharding and failover, supporting 1M+ daily ops with Docker/Kubernetes.
- **Credit Risk Model** · RF + Neural Net · AUC 0.92; end-to-end ML pipeline with Dash dashboard. Integrated real-time user input and model interpretability for actionable loan assessments.

Note: This list includes selected highlights. For a full portfolio of solo, academic, and collaborative projects with code, demos, and writeups - please visit gras-sie.github.io
